Teacher observation, class concert, self-assessment, worksheets.	Teacher observation, class recording, self-assessment.	Teacher observation, class recording, self-assessment, group presentation.	Teacher observation, class recording, self-assessment, question paper.
HOMEWORK	No formal homework is given to S2 pupils however, if there is access to an instrument at home, pupils are encouraged to take music home to practise. Pupils who receive instrumental tuition are expected to practise daily at home.					
WORLD OF WORK	Pupils will develop creative skills for life and work including reflecting, evaluating and applying, as well as motivation for learning, collaborative working and respect for others. Learning a musical instrument can improve literacy and numeracy skills, benefit pupils' health and wellbeing, and develop fine motor skills.					
WHAT CAN PARENTS/CARERS DO TO HELP?	Encourage your child to join an extra-curricular club within the music department. Listen to different styles of music with your child and discuss why they like / dislike certain music. If you have access to a musical instrument at home, encourage your child to practise regularly.
