

TIMEFRAME	August – November	November - January	January - April	April – June
CONTENT	<p><u>Needs & Choices</u> This unit develops S1 knowledge of nutrition in relation to people’s varying health needs and explores the health consequences of those choices. They will look at government health guidelines, and amend a recipe to meet the targets set.</p>	<p><u>Textiles</u> Pupils will learn about the Fashion & Textiles design process and will work to a design brief. They will have increased freedom with their designs and will also build upon their knowledge of fabric and construction techniques.</p>	<p><u>Keeping Safe & Hygienic</u> Safe and hygienic practise is actively encouraged and discussed all year, but this unit will explore the role of Environmental Health and bacterial growth in more detail.</p>	<p><u>The Journey of Food</u> This unit explores food miles, local/seasonal produce in addition to consumer rights. Pupils will complete a product development project to develop, package, advertise and manufacture a food item in line with the learning in this unit.</p>

WHAT CAN PARENTS/CARERS DO TO HELP?	We would ask parents and guardians to encourage pupils to complete all assigned homework to the best of their ability, and report any issues with the tasks set as they arise. Pupils should be equipped for all practical lessons with a container suitable for the dish being prepared – pupils are told well in advance of what dish they will be making.
